RECOVERY TECHNOLOGIES

INTRODUCTION

WHAT IS OxyPro?

Introducing the CTN OxyPro™, a revolutionary hyperbaric oxygen therapy chamber that redefines the approach to wellness and recovery. This state-of-the-art device, operating at a pressure of 1.35 to 1,5 ATA (35 to 50 kPa), offers a unique and effective way to experience the benefits of increased oxygen levels.

OxyPro™ is designed for safety, reliability, and ease of use, making it accessible without the need for third-party assistance. Its foldable and portable design allows for versatile use in various settings, from professional clinics to home environments.

OxyPro™ is made of high-quality TPU material and represents CTN's commitment to innovative wellness solutions, providing a comfortable and effective way to enhance overall well-being.

Key Features:

1

Advanced Hyperbaric Technology: The OxyPro™ operates at a pressure of 1.35 to 1,5 ATA (35 to 50 kPa), enhancing oxygen absorption in the body for a comprehensive wellness experience.

2

User-friendly and Safe design: Foldable and portable unit, making it accessible without the need for third-party assistance. It's made of durable TPU material, ensuring longevity and reliability.

3

Enhanced Comfort and Convenience: Spacious interior, intuitive operation panel, along with a comfortable mattress and adjustable seat provides a relaxing environment for users.

4

Efficient and Eco-friendly: Advanced air filtration system and dual AIO unit, functions as an air compressor and oxygen concentrator, making it an efficient and environmentally friendly choice.

HOW IT WORKS?

HYPERBARIC OXYGEN THERAPY

- › CTN OxyPro™ involves breathing in oxygen at a higher pressure than the normal atmospheric levels. This increased pressure allows the body to absorb more oxygen into the blood cells, tissues, and organs, enhancing the body's natural healing processes.
- › The OxyPro™ creates a controlled environment where users can safely experience the benefits of oxygen therapy. The therapy is known for its role in promoting relaxation, supporting recovery, and enhancing overall wellness.
- › The advanced air filtration system ensures a pure and clean oxygen supply, while its user-friendly design makes the therapy experience both comfortable and convenient.
- › With its innovative approach, the OxyPro™ offers a non-invasive method to support the body's natural functions, making it a valuable addition to any wellness routines or spaces.

BENEFITS:

- › Supports the body's natural recovery processes
- › Supports immune system
- › Promotes cellular health
- › Enhances oxygen delivery
- › Aids in cellular detoxification
- › Supports overall health and well-being

*Immerse yourself in the
future of recovery.*

PERFORMANCE & DESIGN

The CTN OxyPro™ combines exceptional performance with a sleek and modern design. Its efficient operation, coupled with a focus on user comfort and safety, makes it a standout in hyperbaric oxygen therapy. The OxyPro™'s design is not only functional but also

aesthetically pleasing, making it a valuable addition to any wellness-focused space. Its eco-friendly features and energy-efficient operation reflect CTN's commitment to sustainable wellness solutions.

OxyPro™ *Plug-and-play!*

Equipped with a simple operation panel and made of durable TPU material

Spacious interior and comfortable mattress provide a relaxing environment

Foldable and portable design allows for easy transportation and setup in different locations.

Technical Specifications:

CHAMBER	
Pressure:	1,5 ATA
Material:	TPU
Size:	Length 2300 mm x Width 1000 mm x Height 1200 mm
Weight:	46 KG
Dual AIO UNIT	
Size:	Length 766 mm x Width 350 mm x Depth 750 mm (30x14x29")
Flow of Air:	72L/min
Air filter:	Dual
Weight:	110 KG
Power:	1100 W
Flow of Oxygen:	10 L / MIN
Features:	Functions as an air compressor, oxygen concentrator and cooler

PRODUCT FAMILY BY CTN

The CTN family of devices includes several well-being and recovery enhancing equipment. Our aim is to make things easier for a variety of wellness professionals and enthusiasts by providing solutions that ease workload, increase customer satisfaction and boost business with a more diverse product offering.

X°CRYO™

Localised cryotherapy device specifically designed to be used in targeted cooling of the skin, joints and muscles anywhere around the body.

e°CABIN™

Electrically powered and fully automated whole body cryotherapy cabin for supporting overall recovery and well-being.

X-TONE™

Magnetic Muscle stimulation (MMS) device expertly crafted for targeted strengthening and recovery, ideal for enhancing muscle wellness throughout the body.

LedPro™

Powerful whole body Red Light Therapy combined with Near-Infrared for enhancing recovery and skin rejuvenation.

ABOUT US

CTN stands at the forefront of global high-tech wellness, specializing in manufacturing advanced recovery devices and accessories. We offer comprehensive device installation, support, and user training to ensure safe and effective operation. With support available on-site, at our CTN Showrooms in Finland or Spain, and online, we are dedicated to enhancing the wellness journey for professionals and individuals worldwide.
